Allowable Subject Matter

Claims 8-10, 16-18, and 22 are allowed. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to point out the following step in claim 16 in sequence with the other steps in the method of claim 16: *applying a conformal dielectric layer over the copper seed layer, and directionally etching the conformal dielectric layer so as to remove the conformal dielectric layer from top surfaces of the dielectric layer, the top surfaces not including substantially vertical walls substantially in the feature defined in the dielectric layer, the directional etching exposing the copper seed layer over the top surfaces.*

The prior art of record also fails to point out the specific wet etching composition of claims 8, 10, and 22 in combination with the other steps in the method of claims 8, 10, and 22.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
